## TORPEDOED OFF HAVRE

## Britain Loses Two Merchant Ships.

#### SUBMARINE ACTIVITY

#### Two Other Vessels Meet Same Fate in Irish Sea.

Paris, Feb. 1 .- The French ministry of marine announced that two British ships had been torpedoed in the English channel, off Havre, by a German submarine. They are the steamers Tokomaru and Icaria.

The Tokomaru was bound from New Zealand to England. Her crew was rescued by the trawler Semper. Her cargo consisted in part of clothing and a contribution of £1,500 (\$7, 500), New Zealand's gift to Belgian refugees.

No details are available concerning the torpedoing of the Icaria.

The following statement was given out by the ministry of marine:

"The Tokomaru was sunk by a tor pedo from a German submarine. The English vessel Icaria also was torpedoed in the same locality.

"In the Irish sea the English steamers Linda Blanche and Ben Cruachen were torpedoed also.

"Hitherto the Germans, before at tacking a merchant vessel, always al lowed the crew sufficient time to embark in the ship's boats. That custom has now been abandoned, as was shown by the bombardment of the Admiral Ganteaume, which was filled refugees. The German marine has decided to violate systematically and

deliberately international law. The French steamer Admiral Gan teaums, to which reference is made in the statement of the ministry of ma rine, was sunk Oct. 26 while on her way from Calais to Havre with a throng of Belgian refugees, of whom forty lost their lives. The British admiralty later announced that the ship

## DEFENSE DEBATE STOPPED TOO SOON

#### Discussion Brought Out Few Interesting Features.

#### ONLY ONE MATTER SETTLED

Present House of Representatives Does Not Intend to Increase Size of Uncle Sam's Standing Army - Partisan Feeling In Senate Aroused Over Demand For Passage of Shipping Bill.

By ARTHUR W. DUNN.

Washington, Feb. 1.-[Special.]-The debate on the army bill in the house of representatives did not bring out the interesting features about national defense to the extent anticipated. There had been so much in the papers about the inadequate national defense. and members of congress had taken so much interest in the subject, that it was thought possible to have a real symposium and a spirited debate on the subject of military preparation.

The speeches were good, but they were all so hurried that they did not partake of the general debate which would have been an enlightening factor in the discussion on this important subject. About the only thing that was settled is that the house of representatives as now constituted does not intend to add materially to the army at the present time.

Partisan Feeling In the Senate.

The shipping bill has had the effect of bringing out a great deal of pardefeat on the Turks in the Sari-Ka- tisan feeling, and some bad blood has been shown in the debate. Naturally the Democrats who are standing with President Wilson are sore because the Republicans have organized such a determined opposition to the shipping bill. A debate that becomes a filibuster always engenders bad feeling.

Using Republican Rulings.

The Republicans of the senate have no cause to complain about the strict enforcement of the rules which are intended to reduce the power of filibustering. Rulings by Vice President Fairbanks and Vice President Sherman did | + much toward tightening up the rules . #### PROTESTS HAVE NOT BEEN FILED

on Ship Purchase Bill.

#### WILL AVOID CONTROVERSY

Should the Pending Measure Become Law It Is Intimated That an Equal Distribution of the American Government's Purchases Will Meet With No Seri us Objection.

Washington, Feb. 1.—The United States government does not intend to be drawn into any negotiation or disucssion with foreign governments as to whether it has the right to buy belligerent ships until the bill pending in the senate is enacted into law and there is a decision as to where the purchases are to be made.

Believing that no foreign power has any ground for supposing that in purchasing ships any unneutral act would be committed no protests are expected in advance of action by the American government.

This was made clear on the highest authority after the return of Secretary Bryan to the capital. It became known also, almough the secretary himself declined to make any statement, that neither be nor any other official of the American government had asked for or received the views formally or informally of belligerent governments on the pending ship purchase bill.

Several Have Given Views.

Not only Great Britain, but France as well, have given the United States their views on changes of registraphases of the questions that have dethe Brindilla and the purchase of the

## PROTESTS HAVE NOT BEEN FILED

on Ship Purchase Bill.

#### WILL AVOID CONTROVERSY

Should the Pending Measure Become Law It Is Intimated That an Equal Distribution of the American Government's Purchases Will Meet With No Seri us Objection.

Washington, Feb. 1.—The United States government does not intend to be drawn into any negotiation or disucssion with foreign governments as to whether it has the right to buy belligerent ships until the bill pending in the senate is enacted into law and there is a decision as to where the purchases are to be made.

Believing that no foreign power has any ground for supposing that in purchasing ships any unneutral act would be committed no protests are expected in advance of action by the American government.

This was made clear on the highest authority after the return of Sec retary Bryan to the capital. It be came known also, although the secre hough the secretary himself declined to make any statement, that neither he nor any other official of the American government had asked for or received the views formally or informally of belligerent governments on the pending ship purchase bill.

#### Several Have Given Views.

## LOSSES DRIVE BROKER INSANE

Now Yorker Kills Wife, Two Daughters and Himself.

#### WRITES BRIEF NOTE TO SON

Women Are Shot to Death While Sleeping, Magazine Rifle Equipped With Automatic Silencer Being the Weapon Used Deed Done So Quietly It Was Not Discovered for Several Hours.

New York, Feb. 1.-Armed with a magazine rifle equipped with an automatic silencer Herman Auerbach, once a wealthy real estate broker, who had become despondent because of financial reverses, shot and killed his wife and two daughters as they slept and then, returning to his own bed, killed himself. His son, Lester, a high school student, was the only member

of the family left alive. So completely did the silencing device muffle the reports of the weapon that the tragedy was not discovered for several hours. The son found under his door a note from his father, requesting him to telephone relatives. The quadruple killing took place in an exclusive apartment house on Cen-

Coroner Feinberg, who conducted an investigation, said Auerbach evidently had planned the tragedy for several days and had executed it with calm deliberation. The dead man's son informed the coroner his father had brought the rifle home nine days ago. The coroner believed the dead man's despondency was due to recent depreciation in value of mortgages and

securities which he held. A maid, who had not been disturbed by the shooting, arose as usual, but made no effort to call the members of the family until 10 a. m., when, failing to get responses from others, she went to Lester's room and roused him. The boy found under his door a note

#### in his father's writing, which read:

Leaves Brief Note for Son. "When you wake up telephone Un-

The boy went to his father's room, where he found his father and mother dead in their beds. Between them lay the rifle. Dashing into the room of his two sisters he found Beatrice, eighteen, and Daisy, two years younger, dead, with the bedclothing tucked IN ASYLUM COLLAPSE about them and drawn over their heads. Then the box followed his father's instructions, notified the relatives of the tragedy, as well as the

police. After that he broke down.

When the coroner came he found on a desk in Auerbach's room four empty cartridge shells of heavy caliber, apparently those which had been ejected from the rifle after each shot. Inasmuch as the fourth bullet was New Orleans, Feb. 1.-Twenty boys that with which Auerbach ended his

#### SAFETY IN MINING INDUSTRY

During the Year Ended June 30, 1914, More Than 3,500 Men Were Killed and Many Injured

The report of the director of the Bureau of Mines for the year ended June 30, 1914, which has just appeared, shows a constant increase in the safety of workmen engaged in great. During the year more than 8,500 men were killed and more than 100,000 injured in this industry. It is believed that one-half of the fatalities and three-quarters of the injuries were easily preventable and much of the estimated twelve millions of money loss ultimately paid by the consumers should have been saved, says the Journal of the American Medical association. Among the causes assigned for these casualties are mine explosions and mine fires ly by electrica I apparatus;

the use of improper explosives, directly or indirectly the cause of a large proportion of the fatal accidents, among which are accidents to shot firers; and injury to the health of the miners from poisonous children of whooping cough." Fo- gases given off by improper explosives ey's has a forty years record of simi- and from generally poor ventilation of the mines. The last is said to be ways insist on Foley's. H. P. Dunn. true particularly of the metal mines, statutory provisions in regard to ventilation in the metal mining states being incomplete and inadequate, with no efficient system of ventilation generally in force. Although improvement has been made, there is still necessity for more extensive use of safe-No. 1 Northern, \$1.45% @1.45%; No. ty appliances. It is said that during the past five years through lack of such appliances more than 3,500 men have been killed and 20,000 seriously injured. vivid and true to life. In many cities every school teacher would insist upon all the children attending a show

#### "Today" at Park Theatre

"Today" which plays at the Park theatre on Thursday evening, February 4, was the drama longest on the New York stage last season because its authors, George Broadhurst and Abraham Schomer, developed, most skillfully, the most timely theme of the day-the national disease for keeping up appearances. Other incidental subjects touched during the enactment of the play makes its locale strictly New York city. One dramatic editor described it as "a vital and vivid drama of New York life' perity in Gotham. In a season made notable by its failures, it was of siguificance that "Today" is not a "red light," a "white slave" nor "underworld" drama, but a play of fascination and thrills, built upon the most mportant theme of present day life Prices 50c, 75c, \$1 and \$1.50.

#### THE DEMON OF WOE, WANT AND POVERTY

S. W. English

#### (Fire Prevention Expert)

There is no poetry in a fire that destroys. There is no warmth of good cheer in a blazing house. Only misery and want and woe can echo from homes destroyed, from business houses wrecked, from savings vanshed via the fire route.

And fires are the fruits of human cts of commission and omission They do not start of their own ac cord. They must always have a hu man being for a partner!

This being the case, why not culti vate a little foresight Why not keep your premises clear of trash, of litter, of waste and such things that are excellent fire food?

When properly curbed and circumscribed, a cheering fire is a thing that makes a most excellent servant contributing greatly to the comforts of man. But to keep fire a servant requires constant and unceasing vigil While a good servant it is a most ex acting master!

Are you doing your full share tobors. Every time a house is de stroyed your neighbors must stand

#### AN ELOQUENT SERMON

#### Rev. G. P. Sheridan Preaches on "The Hope for Fallen Nations," at 1st Congregational Church

The following are a few excerpts taken from Rev. Sheridan's sermon last evening, dealing with the war len Nations.'

"A great moral ship of human faith, and government is wrecked in Europe. The moral crisis of the great war has the echo of its thund-

ering guns in our bosoms. "Human methods are corrupted and belching forth their venom and crime; the nations have said farewell to every virtue, law and ideal.

"Christ is saying to the nations, One of you have betrayed Me, and by the illness of Mrs. Coppersmith's he monarchs are gathered round the so-called table of their God and with drawn steel, respond in awful blasphemy 'Lord is it I.'

"The Judas has not been revealed as yet, but when he is the weight of innocent blood will drive him to the

"Whether we believe in the fall of man as given in Genesis or not, one thing we must admit that the fall of 1914 will go down in history as the fall of man. "The most horrible crime that ever

rawled along the spine of the human race happened then. Greed, graft and grasp explain it, the worship of ards. self instead of the self-sacrifice. "A moral power like a wild beast

its wildness and is mad. Science has helped to sharpen its teeth, scholarship has failed to keep it tamed. "With all our human efforts, edu-

cation, philosophy and science the ship is wrecked, we have failed. "One thing is certain that German

philosophical thought instead of teaching self-sacrifice has taught the sacrifice of every human affection, and the ideals of a great, grand and glorious Christian empire, upon the altar of a bloody inhuman militarism.

Hell has overflowed and God only knows where it will end.

and re-echo the sound as they cry the doing nicely. question, 'Is there a Hope.

"Yes, there is a hope, but not in human methods. It matters not whether the Allies or the Germans win, one thing is assured that unless the victor is infused with a divine passion for universal brotherhood, Hell on earth will remain.

"Have you thought of the possible supremacy of a German cultured militarism, have you thought of a Russian, uncultured depotism; it is six to

"Material evolution is a failure, human methods, etc., fell last June, humanity evolved as a greeneyed monster and is tearing life to pieces.

"The goodess of God is the only hope for the nations abroad.

"Jesus is the goodness of God, only as the nations are willing to rest their foundations upon Jesus can we ever lope for the cessation of war, the upbuilding of universal brotherhood and permanent peace.

"Jesus and Calvary eclipse Mount Sinai with its law. The Alps cry 'Is there a Hope?' Would to God the battle fields of Belgium, Germany, France, Austria, Servia and the shores of Great Britain could hear my voice. Yes there is a hope for the nationsit is Jesus the Godness of God."

#### Was Well Received

The sacred cantata, "The Rainbow of Peace," rendered at St. Paul's church Sunday evening, was well attended and thoroughly enjoyed. Especially pleasing were the tenor and bass solos by Prof. J. A. Winther and Mr. Richard Ilse, respectively, while the chorus work by the choir was highly commendable and reflected credit upon the choir master, Morris D. Folsom. Mr. Folsom plans to have a musical service on the last Sunday evening of each month, and the public is cordially invited to these serof the church. The choir will begin Story of the Cross," by Dudley Buck, to be given on Good Friday.

#### Women's Relief Corps

The card party at Odd Fellows hall by the ladies of the Womans Relief Corps on Friday evening was a very pleasant affair and enjoyed by a good number of people. Dr. Jamieson won bert Fox second. Mrs. Mary Stillings captured the ladies prize and Mrs. R. Ahrens was second. A nice luncheon was served which was thoroughly enjoyed.

#### MUSIC AND DRAMA

The first episode of "Runaway June," the biggest and newest serial photo play, was exhibited at the Emoress last night. Through a shipping delay the advertised show did not arrive, and through a series of fortunate circumstances the management was enabled to give their patrons a show. Mr. W. H. Stafford who is boooking 'Runaway June' throughout the state, happened to be in the city and offered the use of the first episode of "Runaway June," and the Grand the atre offered two reels. This very timely assistance employed by Mr Dwyer and the show pleased the audiences very much. The show advertised for yesterday and today will be shown today, it having arrived via Staples this morning. In one way this is a benefit to the Empress, as a new show will be the added attraction to pay day. Everybody presan this evening will receive a pay envel ope, and the holder of three coupon will be admitted free. Every envel ope will contain something. There are no blanks.

show "The City of Darkiness," a two part drama "Getting Acquainted," a Keystone comedy "As a Man Thinketh " a drama and another comedy reel

#### At the Grand In the filming of the latest install

ment of the "Master Key" which is position was met from the San Franwork at once upon the cantata, "The cisco Chinese, who feared that white slave investigators were about to take pictures of Chinatown resorts for use in a campaign to secure the expulsion of the colony. Finally after advising with the Chinese consul Leonard was out Chinese rookeries with plenty o history, atmosphere and local color thorough search of Chinatown fo Ruth, in which he succeeds. There is clean excitement in these reels to night and the story is becoming mor than exciting.

vivid and true to life. In many cities every school teacher would insist upon all the children attending a show of this character.

#### "Today" at Park Theatre

"Today" which plays at the Park theatre on Thursday evening, February 4, was the drama longest on the New York stage last season because its authors, George Broadhurst and Abraham Schomer, developed, most skillfully, the most timely theme of the day-the national disease for keeping up appearances. Other incidental subjects touched during the enactment of the play makes its local notable by its failures, it was of siguificance that "Today" is not a "red light," a "white slave" nor "underworld" drama, but a play of fascination and thrills, built upon the most important theme of present day life

THE DEMON OF WOE, WANT AND POVERTY

Prices 50c, 75c, \$1 and \$1.50.

#### (Fire Prevention Expert)

There is no poetry in a fire that destroys. There is no warmth of good cheer in a blazing house. Only misery and want and woe can echo from homes destroyed, from business houses wrecked, from savings vanshed via the fire route.

And fires are the fruits of human acts of commission and omission. They do not start of their own accord. They must always have a human being for a partner! This being the case, why not culti-

vate a little foresight Why not keep your premises clear of trash, of litter, of waste and such things that are excellent fire food? When properly curbed and circum-

scribed, a cheering fire is a thing that makes a most excellent servant contributing greatly to the comforts of man. But to keep fire a servant requires constant and unceasing vigil. While a good servant it is a most exacting master!

Are you doing your full share toward preventing fires? If you are you merit the thanks of your neighbors. Every time a house is destroyed your neighbors must stand their full part of the fire insurance

1 2 3 4 5 6 7 8 9 10 11 2 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27

Speaking of the abolishment of the municipal court of Crosby and which is up for legislative action, the Crucible says: "It is the opinion of The Crucible that it would be a grave mistake to abolish the court, as suggested for the reason that it would deprive the citizens of Crosby of a proper tribunal for legal matters that are above the justice courts, and force them to go to Brainerd at much additional expense and considerable inconvenience. Leaving aside the argument that evidently prompted those behind the move, The Crucible is free to say that Crosby is particularly fortunate in having a court of such jurisdiction, and it should not be molested-and probably will not be.

Strenuous times are being experienced at Moorhead, according to the Fargo News, the campaign becoming so hot there that 30 or 40 below weather is not noticeable. A recent crime is being used by the no license people to aid their side of the argument, but it seems to be conceded by even the conservative element that the chances of voting that city dry are not very good. The Fergus Falls Journal in mentioning the affair says "The Commercial club blackballed two ministers who were working against license last night, and the same time admitted to membership a saloon keeper who had served a prison sentence." Moorhead is the oasis for North Dakota and with a dry season in prospect they will have to be watched.

The duties of a democratic commitparently more arduous than would appear on the surface, judging from the following item clipped from the columns of the Crosby Crucible: "J. F. Sullivan, a member of the Crow Wing county democratic committee, has served his official connection with that political body. Mr. Sullivan, who represents the Fitger Brewing company on the Cuyuna range, finds that his business affairs demand such close attention that he cannot do full justice to his party in that capacity, and he gives way for another. Mr. Sullivan, however, will remain an active democrat and will not overlook anything that might go for the good of the political party of his choice. His successor has not been named as yet.

The Aitkin Age reports the finding of lignite coal which was discovered by a well driller at Willow river, north of that village. The vein, if vein it is, was struck at a depth of 100 feet and was about three feet in thickness. The samples shown would readily ignite and burn, and when shown to Mining Engineer Botsford he recalled that three years ago when drilling in Ross lake township, in Crow Wing county, he struck a similar vein of lignite but at the time thought the drill had possibly found a buried tree which under pressure and shielded from contact with the air had carbonized, and this may possibly be the case with the present find, according to that paper. A good coal find in this vicinity to match up with the iron ore production would be a combination hard to beat.

If a better cough syrup than Folley's Honey and Tar Compound could be found, we would carry it. We know this reliable and dependable medicine has given satisfaction for more than forty years; therefore we never offer a substitute for the genuine. Recommended for coughs, colds, croup, whooping cough, bronchial and lagrippe coughs. No opiates. H. P. Dunn, druggist. mwf

#### **57TH ANNUAL** SEARCH FOR NEW CITY WATER SUPPLY

Water & Light Board Accepts Cuyuna Range Power Company Offer and Work to Start Scon

THE SPRING BAY PROPOSITION

City to Build Pole Line, Power Co. to Drive Well Points in Water Bearing Strata

A new water supply for Brainerd is being considered by the water and light board and at their meeting Saturday evening they accepted the proposition made by the Cuyuna Range

T. H. Croswell and M. D. Stoner, of the power company, in their offer to the board, which was accepted, said: "In the matter of a new water supply for the city of Brainerd, the undersigned offer their services to the water and light board in the development of the so-called Spring Bay proposition, which we understand you contemplate testing before making any definite plans for revising the water works system.

We wish to say that, as we have a considerable amount of equipment in the way of pumps, etc., and have had some experience in such work, we are confident that we can save the city considerable in its outlay for this preliminary work, which we believe will develop a pure and amply supply.

Our plans would be to drive six four inch well points, about 6 feet long, well into the water bearing strata and space them not over 20 feet apart, connect them up to a common suction line and attach a pump of about 2,000 gallon capacity per minute. This pump should be run at least two weeks to test the lasting qualities of the flow and also sufficient research should be made to determine, if possible, from which direction the supply comes so that conclusions may b made as to its source.

We will furnish all material and equipment and superintend the work and finally make a report on our results for the total sum of \$490. We would expect the city to build the electric line to the site.

In case you did not have sufficient copper on hand we would be glad to loan enough No. 4 to complete the line. The city would also be expected to furnish the necessary current to run the motors. With the above amount of work done, even though we should not secure 2,000 tion could no doubt be secured to determine whether or not the above further development.

The work should be done at some city. time in the next 60 days when the would be wet and disagreeable work."

The board, on motion of Commis- support of all. sioner Rowley and Weidemann, accepted the proposition. # SEARCH FOR NEW CITY WATER SUPPLY

Water & Light Board Accepts Cuyuna Range Power Company Offer and Work to Start Soon

THE SPRING BAY PROPOSITION

City to Build Pole Line, Power Co. to Drive Well Points in Water Bearing Strata

A new water supply for Brainerd i being considered by the water and light board and at their meeting Saturday evening they accepted the proposition made by the Cuyuna Range

T. H. Croswell and M. D. Stoner, of the power company, in their offer to the board, which was accepted, said: "In the matter of a new water supply for the city of Brainerd, the undersigned offer their services to the water and light board in the development of the so-called Spring Bay proposition, which we understand you contemplate testing before making any definite plans for revising the water works system.

We wish to say that, as we have a considerable amount of equipment in the way of pumps, etc., and have had some experience in such work, we are confident that we can save the city considerable in its outlay for this preliminary work, which we believe will develop a pure and amply supply.

Our plans would be to drive six four inch well points, about 6 feet long, well into the water bearing strata and space them not over 20 feet apart, connect them up to a common suction line and attach a pump of about 2,000 gallon capacity per minute. This pump should be run at least two weeks to test the lasting qualities of the flow and also sufficient research should be made to determine, if possible, from which direction the supply comes so that conclusions may b made as to its source.

We will furnish all material and equipment and superintend the work and finally make a report on our results for the total sum of \$490. We would expect the city to build the electric line to the site.

In case you did not have sufficient copper on hand we would be glad to loan enough No. 4 to complete the line. The city would also be expected to furnish the necessary current to run the motors. With the though we should not secure 2,000 tion could no doubt be secured to determine whether or not the above further development.

The work should be done at some city. time in the next 60 days when the weather was not very severe, as it bers given by the men of the Metho- of the Spanish-American war and would be wet and disagreeable work."

The board, on motion of Commis- support of all. sioner Rowley and Weidemann, accepted the proposition. The secretary was instructed to erect a pole in Brainerd. Speaking of the abolishment of the municipal court of Crosby and which is up for legislative action, the Crucible says: "It is the opinion of The Crucible that it would be a grave mistake to abolish the court, as suggested for the reason that it would deprive the citizens of Crosby of a proper tribunal for legal matters that are above the justice courts, and force them to go to Brainerd at much additional expense and considerable inconvenience. Leaving aside the argument that evidently prompted those behind the move, The Crucible is free to say that Crosby is particularly fortunate in having a court of such jurisdiction, and it should not be molested-and probably will not be.

Strenuous times are being experienced at Moorhead, according to the Fargo News, the campaign becoming so hot there that 30 or 40 below weather is not noticeable. A recent crime is being used by the no license people to aid their side of the argument, but it seems to be conceded by even the conservative element that the chances of voting that city dry are not very good. The Fergus Falls Journal in mentioning the affair says "The Commercial club blackballed two ministers who were working against license last night, and the same time admitted to membership a saloon keeper who had served a prison sentence." Moorhead is the oasis for North Dakota and with a dry season in prospect they will have to be

The duties of a democratic committeeman of Crow Wing county are apparently more arduous than would appear on the surface, judging from the following item clipped from the columns of the Crosby Crucible: "J. F. Sullivan, a member of the Crow Wing county demogratic complitee, has served his official connection with that political body. Mr. Sullivan, who represents the Fitger Brewing company on the Cuyuna range, finds that his business affairs demand such close attention that he cannot do full justice to his party in that capacity, and he gives way for another. Mr. Sullivan, however, will remain an active democrat and will not overlook anything that might go for the good of the political party of his choice. His successor has not been named as yet.

The Aitkin Age reports the finding of lignite coal which was discovered by a well driller at Willow river, north of that village. The vein, if vein it is, was struck at a depth of 100 feet and was about three feet in thickness. The samples shown would readily ignite and burn, and when shown to Mining Engineer Botsford he recalled that three years ago when drilling in Ross lake township, in Crow Wing county, he struck a similar vein of lignite but at the time thought the drill had possibly found a buried tree which under pressure and shielded from contact with the air had carbonized, and this may possibly be the case with the present find, according to that paper. A good coal find in this vicinity to match up with the iron ore production would be a combination hard to beat.

If a better cough syrup than Foley's Honey and Tar Compound could be found, we would carry it. We know this reliable and dependable medicine has given satisfaction for more than forty years; therefore we never offer a substitute for the genuine. Recommended for coughs, colds, croup, whooping cough, bronchial and lagrippe coughs. No opiates. H. P. Dunn, druggist. mwf

Mrs. Kate Hall says: "I have kept house 15 years, am the mother of four children, and I would not keep house without Hollister's Rocky Mountain Tea." Wise woman, why? Drives away sickness, brings health and happiness to the whole family. It's the world's health preserver. H. P. Dunn-Advt.

# SEARCH FOR NEW CITY WATER SUPPLY

Water & Light Board Accepts Cuyuna Range Power Company Offer and Work to Start Soon

THE SPRING BAY PROPOSITION

City to Build Pole Line, Power Co. to Drive Well Points in Water Bearing Strata

A new water supply for Brainerd i being considered by the water and light board and at their meeting Saturday evening they accepted the proposition made by the Cuyuna Range

T. H. Croswell and M. D. Stoner, of the power company, in their offer to the board, which was accepted, said: "In the matter of a new water supply for the city of Brainerd, the undersigned offer their services to the water and light board in the development of the so-called Spring Bay proposition, which we understand you contemplate testing before making any definite plans for revising the water works system.

We wish to say that, as we have ; considerable amount of equipment in the way of pumps, etc., and have had some experience in such work, we are confident that we can save the city considerable in its outlay for this preliminary work, which we believe will develop a pure and amply supply Our plans would be to drive six four

inch well points, about 6 feet long, well into the water bearing strata and space them not over 20 feet apart, connect them up to a common suction line and attach a pump of about 2,000 gallon capacity per minute. This pump should be run at least two weeks to test the lasting qualities of the flow and also sufficient research follows: Aitkin-Moork, Raymond, should be made to determine, if possible, from which direction the supply comes so that conclusions may be made as to its source.

We will furnish all material and equipment and superintend the work and finally make a report on our results for the total sum of \$490. We would expect the city to build the electric line to the site.

In case you did not have sufficient copper on hand we would be glad to loan enough No. 4 to complete the line. The city would also be expected to furnish the necessary current to run the motors. With the above amount of work done, even further development.

The work should be done at some city. time in the next 60 days when the weather was not very severe, as it bers given by the men of the Metho- of the Spanish-American war and

Wounded In Trench, Kept Diary of Anguish Ten Days.

The devotion of a dog for his wounded master is described in a let- off, head in air. ter just received in New York city from Laurence V. Benet, a member of the committee of management of the American ambulance hospital in Paris:

"A very interesting case turned up a few days ago. A private soldier of a zouave regiment was severely wounded near the Belgian frontier. When he left Algiers he was followed by his colored setter, and this dog followed continued the officer. his company throughout the campaign and into the trenches, every night lent bombardment by the German are good to her I am perfectly willing." tillery a heavy shell struck the parapet of the trench, killing about a dozen men and burying this man deeply under the earth. The dog managed to dig him out, exposing his face, before he was completely suffocated, and then managed to call the attention of men in clothing with his teeth and dragging them toward his buried master. The man was finally dug out and was found to be very badly wounded with fragments of shell, pebbles and pieces of earth that were driven into his body. He has lost one leg so far, and we may have to take the other off.

"The dog managed to force his way into the hospital train and reached Aubervilliers, near Paris, where man and dog were brought into our hospital living near the kitchen and visits his ed in a letter written to the Frankfurmaster in the ward once or twice a ter Zeitung by a journalist now serv day. It is really touching to see his ing as an artillery officer at the front. devotion and his evident distress at his master's suffering.'

#### Boasts of Twenty-six Wounds.

There is a friendly rivalry among the wounded in the Berlin hospitals for the distinction of having the worst shot up man in the war. One who claims twenty-six wounds holds the present record, but Horst Pfeiffer is envied for his remarkable combination of peril and luck.

Near Dixmude he received an order into a ditch at the side of the road, but succeeded nevertheless in handing his message to another soldier, who carried it to its destination. One bullet had grazed his skull, another passed through the upper jaw, one through the chin, one through the bone of the right arm, and one struck his left wrist. Two others struck his helmet and his shoes. His comrades finally succeeded in rescuing him from his dangerous position and sent him to

#### Put Batteries In White.

A device by which the Germans have with one of our ambulances. I had a helped winter mask their batteries in kennel built for the dog, and he is now | the field in northern France is describ-For weeks, he said, the German batteries in shifting positions had been hurling their iron hail against the French near Lille. Then snow fell, covering the landscape with white. In vain the French officers on observation sought to discover the German batteries as on the day before by watching for the sun glint on the metal parts. Everywhere there was but an unbroken stretch of white.

The Germans, the writer explains, had turned each battery into white by which he was to take on his bicycle to wrapping the wheels and gun carriage the firing line. He had to pass on his with white towels, sheets and curtains way a road that was exposed to a hot machine gun fire from the enemy. He was hit eight times and dropped off white sheet was drawn away, and the white nose of the cannon was pointed upward through it. The very artilleryman who touched it off, the correspondent adds, was dressed in white from top to toe in a ludicrous long nightgown, and the entire battery and its crew were quite indistinguishable amid the white of the snow covered landscape.

But in order to avoid an extra session there is little doubt about the house giving up if the senate

#### Pet Measures Eliminated.

Pet measures have been eliminated by the postoffice committee, particularwas anxious to have adopted at this session. That measure makes radical changes in the manner of paying the railroads for carrying the mails, and Maurice Donnay has received at the the railroads have been fighting it with French academy a letter from a friend all the strength they could bring to

It must be admitted that this strength is not as great as it was years ago, when members of congress were more about only one thing-he was afraid friendly to the railroads. That was that the academy, which has been re- in the day of railroad passes, and, while few men will acknowledge that ruage for about threescore years, might they were influenced by passes, it is a fact that there was a much more friendly feeling toward the railroads among all those who were the reciplents of such favors than at the pres-

#### How Do They Do It?

One of the most perplexing questions to an observer of the national legislature is the fact that at least a half dozen senators can be absent so much of the time and yet continue to bold their jobs. In some cases these was apparently the one uppermost in absentees are not present more than one day in ten while congress is in ses-M. Donnay assured him that the sion. Others are not quite so derelict, academy was working on the letter "E" but their absences are so frequent or and that the war would be over long so prolonged that they attract considerable attention. Leaders of the par ties in the senate complain bitterly about the absentees, but it has little effect. The amusing thing about it is that the people who send such senators to congress do not seem to care.

#### The Difficulty In the House.

Difficulty in the house regarding absentees is not because members are away from Washington, but because they do not stay in the hall of the house and maintain a quorum. Majority Leader Underwood has had to lash his party associates severely during the entire four years that he has held that position because they would not remain in the house and so much time was occupied in calling the roll to get a quorum. Probably it is because the debates in the house are so dull and dreary that members cannot be forced to listen to them.

#### He Did Proceed.

During the tight times in the senate Senator Martine of New Jersey tried to get a chance to say something, but was shut out on a call for the regular order. "The senator from New Jersey," said Vice President Marshall, "is certainly aware of the fact that when the regular order has been called for he has no right to proceed."

"I realize that I have no right to proceed," said Martine, and then went on to explain what he was trying to do and why he was making his request.

"The difficulty is," blandly remarked the vice president, "that when the senator has no right to proceed he does

#### And that ended Martine for the time. Rights of Debate.

Much of the Legislation Gui From Appropriation Bills.

and Concur-Pet Measures Eliminated to Hasten Passage-No Revision of Railroad Mail Pay Is Possible at This Term.

#### By ARTHUR W. DUNN.

Washington, Jan. 30.-[Special.]-So he got covered with boiling water. I far as the appropriation bills are concerned the senate is perfectly willing to fix them so that they can be put through without delay. The senate committee on postoffices has eliminated all of the legislation in the postheadquarters in a letter to his wife office appropriation bill, and the upper "In war the views and ideas of your house snows a disposition to cut out enemy are at least as instructive and of all appropriation bills legislation of

Of course under the present condifere the following notions from the tions when the house has put that leglips of a German officer recently cap- islation in the bill it means a contest tured are certainly worthy of your or a back down. But in order to avoid consideration, as the conclusion he apache asked a Paris police captain drew contained a strong element of an extra session there is little doubt about the house giving up if the senate

#### Pet Measures Eliminated.

Pet measures have been eliminated ion, but that he would be very pleased by the postoffice committee, particular-The other day the captain got a post- to prophesy where it would end. So ly that relating to railway mail pay, card from the apache at the front. It he was asked to proceed and then said, which Postmaster General Burleson Within forty yards of where I was was anxious to have adopted at this session. That measure makes radical changes in the manner of paying the railroads for carrying the mails, and Maurice Donnay has received at the the railroads have been fighting it with French academy a letter from a friend all the strength they could bring to

not a word about the fighting or the | It must be admitted that this strength is not as great as it was years ago, trenches. The writer was troubled when members of congress were more about only one thing-he was afraid friendly to the railroads. #### FOREIGN COMMERCE IS HIT

American Trade Abroad Decreased \$373,714,721 in 1914.

Washington, Jan. 30.-Foreign comnerce, aggregating \$3,902,900,051 in value, was conducted by America's during 1914, compared with \$4,276,-614,774 in 1913, according to depart nent of commerce statistics.

The decrease, \$373,714,721, due largely to the European war, was almost wholly in exports, which were \$370,394,242 less, imports dropping \$3,320,479 Jess.

Exports amounted to \$2,113,624,050 and imports \$1,789,276,001, making the visible balance of trade in favor of the United States \$324,348,049, against \$691,421,812 in 1913.

MANAHAN DEMANDS WHEAT COST PROBE.

#### "Get Up" and Get Don't you back up or stop until you've tried PEER-LESS. It's the one perfect tobacco for the big, twofisted, out-of-doors man who wants a rich, full-bodied

tobacco for both chewing and smoking. You get hold of PEER-LESS. Note its rich, natural sweetness - just the pure Southern Kentucky leaf, aged naturally and slowly for three to five years, to bring out all its mellow fragrance and flavor. PEER

LESS has the genuine snap

and taste that you want in

# PEERLESS

was purposely made up, fifty years ago, for the sturdy man who is hungry for man's size tobacco. Fifty years have come and gone and all sorts of brands have tried to beat out PEERLESS, but the old he-boy is still the king-brand of them all.

Hitch up with PEERLESS for a week's trial, and you and PEERLESS will always pull together like a well-matched team. Nothing fancy about the PEERLESS package—we put all the cost into the tobacco. As you say of a horse, "he's all horse"—so we say of PEERLESS-"it's all tobacco."

"Smoke it or chew it—but go straight to it." Sold everywhere in 5c packages.

Other sizes, 10c, 20c and 40c Packages, and 45c Tin Pails.
